VIII. Reports from USC Committees
1. Work-Life & Benefits (WL&B) Committee (Les Fiechtner)
   • Committee did not meet

   a. Staff Scholarship Committee (Jenny Kenley)
      • All the staff scholarships have been credited to student accounts, per Nora Cargo. Total paid
        for Fall 2014 was $13,875.00. The deadline for recipients to submit thank you notes to the
        Former Student Association has passed. Carmen has updated the spreadsheet and will ensure
        that all of these are sent. Will meet in Spring.

   b. Staff Emergency Fund Task Force (Reneé Weidemann)
      • The Staff Emergency Fund Guidelines & Application Form has been created and approved by
        the WL&B committee. This will be the form A&M employees will complete to request funds from
        the SEF once this initiative is up and rolling.
      • Requests have been made to set up an account with both the A&M Foundation and FMO to
        support the Staff Emergency Fund. Once the accounts are created, donations can be made
into the Foundation account. Funds will then be transferred to the A&M account to process SEF payments. Since both of these accounts will have to be set up under the President’s office, discussions continue on details and processes-account signature approval flow, reporting, account balance, gift/donations, etc., and Lisa Blum is working on getting these details worked out.

- Once the account is setup with the Foundation, they will create a pledge card that can be distributed or published to encourage donations. People will be able to donate by check or credit card. We hope to get the word out for donations (possibly some fundraisers) prior to inclusion in the FY 2016 SECC (State Employee Contribution Campaign).
- I have spoken to Danny Grimes in Payroll Services regarding the process in which we will need to follow to pay an employee who has requested funds. He has offered some suggestions; I will be taking his suggestions to the WL&B committee so we can determine the best method. This will enable us to begin establishing SEF committee guidelines and member specifications.
- On Sept. 15th, Renee emailed Ann Kellett, chair of the Communications Committee, and sent her a copy of the SEF Guidelines and Applications form, to see if that committee could start drafting an announcement, a form letter for approval and denial of funds, and an announcement to encourage donations to SEF.

        Response pending
     2. Do directors serve on your staff council?
        Yes, we do have directors serving as representatives on the University Staff Council. However, we encourage staff that has not had as many professional development opportunities to consider being nominated to serve on the USC.
     3. Would a staff scholarship be something I could apply for while also using Financial Aid, or would I only be eligible for one or the other?
        The next application period for the USC Staff Scholarship will be May 2015 and will be awarded for the 2015-16 academic year. The USC staff scholarship is an educational resource and can impact your aid eligibility. If you have additional questions, please contact the Scholarships and Financial Aid office.

III. Visitors Recognized (Jennifer Le Grévellec)
   Peter Lange, Executive Director of Transportation Services, Kenny Kimball of Transportation Services, Jolene Sears of Transportation Services, Therese Kucera of Transportation Services, and Rosemary Shaunfield of Utilities

IV. Presentations
   Peter Lange, Executive Director of Transportation Services gave an overview about Permit Increases. Transportation Services has a working plan to add a couple of parking garages as current parking garage debts are paid off. Many new things are going on at the TAMU campus which requires a need for five (5) garages instead of the two (2) that had been researched and projected. These include the Engineering 25 by 25 Initiative, White Creek Dorm Project, and the redevelopment of Cain Park. On main campus between Texas Avenue and Wellborn Road alone the university has lost 1800 spaces. Once Kyle Field renovations are complete, the university will lose about another 450 parking spots. In order to maintain our current parking ratio, we need some garages built. Peter noted that TAMU does currently have the best
parking ratio when compared to many universities in Texas. If five (5) new parking structures are built, an increase of 3% per year would be needed for the next five years and then inflationary type of increase of 2% through FY2030. The other alternative would be to have 10-15% increases each time one of the garages is completed. The garages are expected to be built at the rate of one every three years with the possibility of 2 being built the first year. Peter’s group will continue to gather input and suggestions to bring forth for the President on the impact of parking permit increases on the permit holders. More detailed responses to questions submitted is attached as a separate document.

9. **Transportation Services Advisory Council (TSAC) (Veronica Sprayberry/Robbie Lukeman)**
   - Met on December 3.
   - An update on the game day traffic plan was given by TTI. They continue to tweak procedures to make improvements. The Chancellor has authorized $1 million to the city to make traffic signal enhancements to improve game day traffic flow.
   - Peter Lange gave an update on the proposal for five new parking garages. These will be partially funded through parking permit fee increases. He indicated that they will also look at rate increases for visitor parking, citations, etc. It was mentioned that parking permit fees also pay for the maintenance of streets and sidewalks on campus. This was met with a good deal of opposition by some who feel like streets & sidewalks are part of the campus infrastructure and that the people who park on campus shouldn’t be required to fund maintenance for them. What about people who walk or ride bikes on campus and use the streets and sidewalks but aren’t charged a similar fee?
   - Transportation Services is working on an agreement with Student Affairs to improve the parking lot at Hensel Park. If this happens, there will be a change in the way the parking lot is used. Currently parking is free and that would continue to be the case (with time limits) for people utilizing the park facilities. However, there are currently some university employees parking there for free. The remainder of the lot would allow for free longer-term parking for anyone with a university parking permit from any lot. Anyone without a TAMU parking permit would have to pay to park.
   - Transportation Services has received feedback from students that night parking privileges are unclear. Although the night parking guidelines are clearly explained online, students would like to see the lots labeled to better communicate the night parking privileges. Transportation Services is exploring signage changes that would best communicate this.
   - The next meeting is scheduled for February 4.

VII. Monthly Meeting with Matt Fry, Chief of Staff to the President (Jennifer Le Grévellec)
- Met on Thursday
- The Chair & Vice Chair mentioned that the recent sweep of vacant positions would affect quality and timeliness of service. The freeze does not affect any academic position or any position that directly affects the health, safety or security of the students. It was suggested that the USC survey the campus for non-anecdotal, data-backed examples of service being affected to share with administration.
- No update from the provost’s office on staff tuition assistance yet. Hope to have info by next meeting.
- Executive Officers (EOs) met with Mr. and Mrs. Michael Young. They were impressed with the current USC programs offered, and are very interested in staff and as well as the proposed programs.
- Staff were reminded to try to attend the Strategic Planning Forums being held.

VIII. Reports from USC Committees
1. Work-Life & Benefits (WL&B) Committee (Les Fiechtner)
   - Met February 3.
   - Elected Andy Armstrong as new co-chair.
   - Met with Sarah Tobola Benefits Manager in HR about years of service and pins. They will look into how years of service are counted in different programs. Had a suggestion for an option for a pendant instead of a pin. It was noted that the years of service pin program may move to another program within the university.
   - Sick Leave Pool information is to be updated annually on web including total number of hours donated, number of cases processed, and rules. Currently 1.3M hours in sick pool at TAMU. Certain restrictions do apply. In FY2014, 213 different applicants used the sick leave pool. The sick leave pool will be featured in future HR liaison network newsletters.
   - Question is still at SEBAC on possibility of more than one option for insurance coverage.

9. **Keystone Report (Toni Eubanks)**
   - Parking increase
     In response to our reply directing the submitter to the university permit cost comparison chart on the Transportation Services website, the submitter asked how Texas A&M University’s salary average compared to those schools. Tim Sweeney responded that it would be difficult to determine a salary comparison as there are many factors involved, including cost of living, suburban vs urban, etc.
   - Staff Emergency Fund
     The benefit will be less than $600, so it will not be taxable. Tim Sweeney is inquiring with the Association of Former Students if they would be willing to provide seed money for the fund. The fund is privately funded and cannot use state dollars. The SEF Committee has not indicated a certain dollar amount to be reached in the account before the benefit can be distributed.
   - Annual leave pool
     A request came from a student regarding an employee emergency fund of paid time off to allow spouses and parents to travel to and care for their injured servicemen. Employees are not allowed to donate annual leave hours, however, family members are allowed up to 26 weeks of military caregiver and regular FMLA leave to be taken within a designated year. • An outside consulting company (Alta) has been assessing TAMU’s Bicycle District Plan and has made some recommendations to add/enhance road markings and signage to more clearly identify bicycle lanes. These changes can be accomplished in a short amount of time and will be inexpensive. Alta also recommended a mandatory registration for bikes because of the
overwhelming number on campus. There would be great value in having a means by which to communicate directly with bike owners regarding construction, etc.

- A previous discussion regarding better signage for night parking was revisited. It was decided that they will start with high-demand lots and will add the verbiage “Any Valid Permit, 5 pm – 6 am, Unmarked Spaces Only.” A work order will be submitted for this and there will be a status report given at the TSAC meeting in March.
- Dr. Strawser approved the partnership with Brazos Transit District and TAMU, allowing riders with BTD passes to use the TAMU transit buses, beginning 2/16/15. The reason for this partnership is to allow us to qualify for grant money from the Texas Mobility Fund that would allow BTD to purchase 60 buses over three years that would be operated by TAMU. All riders will be required to show either a TAMU or BTD ID to ride off-campus routes, effective 3/23/15. IDs will not be required for on-campus routes.
- Post Oak Mall has declined to host the Get to the Grid parking area next fall, citing overcrowded lots on game day that hinder business for its stores. After exhausting several other options for an alternate Get to the Grid location, Transportation Services is working on an agreement with the City of College Station’s Veteran’s Park, which has 1200 paved spaces and 600 grass spaces. More details to come.

9. Transportation Services Advisory Council (TSAC) (Veronica Sprayberry)
   - TSAC Follow Up to Questions from last month’s meeting
     - Question: Instead of punishing all retirees by revoking the free parking permits, why not ticket the abusers and revoke their permits?
       - Answer: We do have a way to identify those misusing the permits and do address these instances. The issue isn’t solely about abuse; this is only one facet. The larger issue is providing free parking for one constituent group means all the other constituencies are subsidizing their parking use. We have been addressing and eliminating free parking over recent years to help ensure a fair system where each customer who uses it contributes. This strategy is key to keeping permit prices at a minimum and limiting permit price increases. Although permit prices will increase by 3% this fall, we have been able to go five years without price increases while many universities across the nation have inflationary increases every year.
     - Question: Is Transportation overselling parking lots on campus? It’s close to impossible to get a spot in Lot 73 between 10:00 a.m. and 2:00 p.m. even though it’s a gated lot. I hate to even leave for lunch because I’m afraid there won’t be a place to park when I return. Many times I see what appears to be students leaving the lot and heading toward the Wehner Building.
       - Answer: In recent years, we had seen a decline in employee demand for parking in Lot 73 and there were not enough employees who wanted to park there to fill the lot. As such, the lot was consistently under filled and employees had their pick of many empty spaces. When this pattern continued, in 2013, we made a decision to allow graduate students to also request Lot 73. We
always leave some spaces available for new employees but fill the remaining empty spaces with students who historically were having to park further away. Anytime we start adding students to a historically employee-only lot, we do so very conservatively, collect much data, and increase the number of students gradually to ensure we don't overcrowd the lot. We have done this in Lot 73 over the past two years and now feel like it has settled out so that it is being used more fully most of the time; still, our goal is to have the lot 95% full at peak times – not 100% full. I have checked our database and we have NO record of Lot 73 being full at any time during this academic year. It should “feel” more full than it has in the past, but at no time (except a special event, such as a home football game day) should a permit holder not be able to find a place to park. I see the person wrote “it's close to impossible to get a spot”…. But not that they could not find a space. It seems as though they may just be experiencing a change in what they have seen in years past. Please have them call the dispatch office at 845-0057 if there is ever a time they arrive in their lot and there is NO place to park.

- Met on April 1.
- Parking Issue: There was a lengthy discussion about a lack of parking for vet students around the Vet School. The lack of spaces is a temporary problem as building construction has decreased the number of spaces near the TIGM and TIPS buildings. As a temporary solution, they are changing lots 49 and 71A from “any valid permit” lots to single permit lots in Fall 2015. By Fall 2016 the construction should be complete and the surface lots around the TIGM and TIPS buildings should allow for plenty of student parking. It's not yet known whether lots 49 and 71A will go back to “any valid permit” status at that time. They will reassess when the time comes.
- Transit Update: TAMU has acquired 10 new and 5 used 40’ buses. They will have a total of 86 buses in the fleet next fall and will begin to take aging buses offline in cycles to refurbish. In Fall 2015, they plan to increase their service hours by over 10K. Route 3 will be a new route that will service White Creek dorms and Wehner. There will be three buses on the route and it will provide 10 min. service. They will also be adding more service hours to existing routes that are currently overcrowded.
- The proposed parking permit rate increases have been approved. The increase will be 3% for the next five years and likely a 2% increase on an ongoing basis thereafter. See http://transport.tamu.edu/Parking/faqpermit/info.aspx for projected rates for each lot type.
